

Engineering Computing Seminar – ENGR 244 – Fall 2017

American University of Iraq, Sulaimani (AUIS)

Wednesday, December 6, 2017

Session I: Room B-B1-03

12.30 – 12.45	Interplanetary Units Group	group presentation
12.45 – 13.00	Nina Amanj	<i>Conversion between time formats</i>
13.00 – 13.15	Kozhin Hiwa	<i>Memory allocation failures</i>
13.15 – 13.30	Projectile Motion Group	group presentation
13.30 – 13.45	Hazhan Hamid	<i>Working with arrays</i>
13.45 – 14.00	Lara Ismail	<i>Merge Sort compared to Insertion Sort</i>

Session II: Room B-B1-08

14.15 – 14.30	Rekar Hama Tofiq	<i>Security issues at small business banks</i>
14.30 – 14.45	Shortest Distances Group	group presentation
14.45 – 15.00	Layth M. Alshawy	<i>Effects of programming on navigation</i>
15.00 – 15.15	Zryan Baqi	<i>Technology and banking systems</i>
15.15 – 15.30	Matrix Operations Group	group presentation
15.30 – 15.45	Burhan Taha	<i>Relational databases</i>

Session III: Room B-B1-08

18.00 – 18.15	Bank Account Systems Group	group presentation
18.15 – 18.30	Soran Diyar Ali	<i>Applications of matrix operations</i>
18.30 – 18.45	Grade Scale Group (section 1)	group presentation
18.45 – 19.00	Solin Salahalddin	<i>Managing complex course structures</i>
19.00 – 19.15	GPA Calculator Group (section 2)	group presentation
19.15 – 19.30	Rez Maarouf	(individual presentation t.b.a.)

Presence at two sessions (minimum) is a mandatory part of the project work for all participants.
